## P R E F A C E .

The fourth edition of the Great Metropolis now presented to the public, it is confidently expected, will meet with their approbation. It has improved wonderfully considering its age; and neither pains nor expense have been spared on it this year. To strangers visiting this city, (for it is to them the publisher looks for the sale of a large proportion of the edition,) the best recommendation which can perhaps be urged is to refer them to the advertising pages (where will be found the cards of many of our first houses,) for the estimation in which this little work is held where it is best known. The number of pages have been increased without any increase of the price. A still larger edition, containing the British, Canadian, and Havana Tariff is also printed at 50 cents.

NEW YORK, November 15, 1847.

# PRINTS ONLY.

## LEE & BREWSTER,

### 44

### CEDAR STREET, NEW YORK.

We established a WAREHOUSE in the year 1843, for the purpose of supplying the City and Interior Trade with PRINTED CALICOES EXCLUSIVELY, at low prices.

As we are at all times the most extensive cash buyers of Prints in this country,—besides the styles printed EXCLUSIVELY for ourselves, and our large importations of British Prints, we possess advantages secured thereby, *and the largest assortment in THE WORLD.*

### LEE & BREWSTER.

P.S. A *Print House*, recently established in this city, have issued a "*private circular*" of which a very large edition has been forwarded to every part of the country, offering persons to whom it was addressed "*five per cent. commission*," on all sales made to such merchants as they could induce to take "*letters of introduction, open or sealed.*"

This *secret proposal* has been made to different editors of newspapers, provided they would publish their elaborate advertisement for nothing. Some country editors have been thoughtlessly misled by it into the unprofessional and unprofitable service of practising these tricks upon their neighbour merchants. The great mass of honorable editors, however, as might naturally be supposed, indignantly rejected the proffered "*truck-and-dicker*," and many of them reflected freely and justly upon its absurdity, in various editorial articles.

Some of these papers, however, inadvertently omitting to designate the firm, only mentioning "*a Print House*," and, as our House is the one most generally known throughout the Country as "*THE PRINT HOUSE*," it is natural that ours should be considered the House referred to.

We therefore deem it our duty to inform the Public, that we are not entitled to the profits or the honor of this novel invention to swell trade.

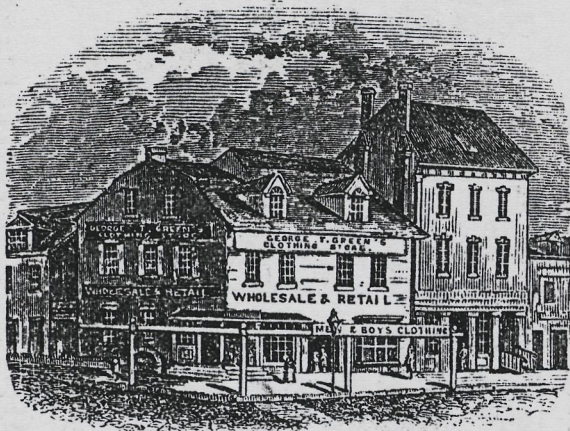

Merchants, "*without letters of introduction, open or sealed.*" are now offered GREAT BARGAINS IN PRINTS ONLY,—but no "*five per cent. commission*" to drummers and editors.

KUMBEL'S PATENT LEATHER BANDS,  
FOR MACHINERY.

MANUFACTORY AT 33 FERRY-STREET,  
NEW-YORK.

**Awarded a Medal at the late Fair of the American Institute, for the very superior principle on which they are stretched, and for being the best stretched.**

The subscriber would invite the attention of Manufacturers, Machinists, Proprietors of Steamboats, Rail Roads, Sawmills, and all others using the article of Leather Banding, to his Patented Bands, which have now been before the public a sufficient time to have their utility fairly tested; and he is furnished with numerous Approbatory Testimonials in their behalf.

These Bands are constructed on principles which have not been heretofore developed. They are made from the best of Oak Leather, and cut from the heart or solid part of the Hide or side only; are thoroughly stretched on powerful machinery, and are cemented and riveted together; they are warranted to run straight, and have a perfect bearing on the Pulleys. These qualities combined constitute the essential requisites of good Bands, and compose their intrinsic merit over all others. They can be furnished of any length and width, from one to twenty-four inches wide.

The subscriber feels confident in asserting that one of his Bands is equal in durability to four made in the ordinary manner, and that they will afford perfect satisfaction during the whole time of their use.

He is also happy to state that he has the recently Patented Concave Head and Oval Shank Rivets, which presents less metal to the Pulleys than any other, thereby effectually correcting the well-known difficulty of Belts slipping.

A constant supply of Lace and Picker Leather, of the most approved qualities; together with a general assortment of SOLE and UPPER LEATHER, WAX CALFSKINS, HARNESS, BRIDLE, SKIRTING, &c., &c.

The subscriber has the pleasure of being the first individual who made Machine Leather Banding by Machinery.

# PURE WATER.

## DIAPHRAGM FILTERS, JENNISON'S PATENT, 1845.

Office removed from 334 to 349 Broadway.

These filters, not larger than a pint measure, can be readily and without expense attached to any hydrant or pipe conveying water, and will yield a steady stream of pure water, equal to one hundred gallons per hour, under the pressure of the Croton, more than enough for the culinary wants of the largest families, even for washing clothes, to which it imparts a pearly whiteness not otherwise obtained. It separates with equal certainty and dispatch all the animal, vegetable and earthy matter found, despite all possible precautions, in every distributing channel of the Croton, Schuylkill, Mississippi, Connecticut, or Long Pond, and other river water. They are also constructed for filtering fluids for manufacturing purposes, and water for steam engines, &c., &c.

They are ornamental, and will last for years; are not liable to get out of repair, or subject to damage from frost; and will prevent the pipes from bursting. They have the merit of cleansing themselves, by the simple act of changing them end for end once or twice a week, depending, however, on the quantity of water used, and the impurities contained in it; and they are designed for filtering water under any circumstances and degree of pressure.

The necessity of filtering river water, and the efficiency of the Diaphragm Filter, bears the endorsement of the following eminent Physicians and Chemists of the cities of New-York and Philadelphia:

*Prof. John Torrey, M.D., N. Y.*

*Prof. James Renwick.*

*Valentine Mott, M.D., N. Y.*

*Prof. James J. Mapes, N. Y.*

*James R. Chilton, M.D., N. Y.*

(Which consists of porous, artificial Rock for the filtering medium).

contained in great abundance in river water,  
as certified to by Dr. Dionisius Lardner.

Correct Drawings of the Living Animalcules,

They are exhibited in operation, and for sale, at 349 Broadway, New-York; 79 Walnut-street, Philadelphia; 3 South-street, Baltimore; 451 Washington-street, Boston; and other cities of the United States.

The Officers of the Army and Navy, and Masters and Owners of Vessels, are invited to see the above and other appliances for filtering water; also, Force Pumps, Hose, &c., &c.

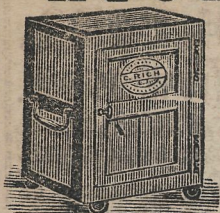

From the facilities in their manufacture, and the increasing demand, the proprietor is enabled to afford them at from Three to Five Dollars each.

All communications to be addressed to **W. M. GIBSON, 349 Broadway.**

P.S. Since the introduction of this invention, a number of imitations have been presented to the public, which are deemed infringements upon the patents of the Diaphragm Filter. Notice is hereby given, that suits of law will be commenced against those who manufacture, or offer for sale, any infringement. Purchasers of them are also liable to a suit at law.

**RICH & CO'S.**

IMPROVED PATENT

**SALAMANDER  
SAFES,**

*A decided improvement on the original Wilder's Genuine Patent.  
Warranted free from dampness as well as fire and thief proof.*

Particular attention is invited to the following certificates:

**Test No. 8. In the Great Fire of July 19, 1845.**

The undersigned purchased of A. S. Marvin, No. 138½ Water-st. one of *Rich's Improved Patent Salamander Safes*, which was in our store, No. 54 Exchange Place. The store was entirely consumed in the great conflagration, on the morning of the 19th inst. The Safe was taken from the ruins 52 hours after, and on opening it, the books and papers were found entirely uninjured by fire, and only slightly wet—the leather on some of the books was parched by the extreme heat.

*New York, 21st July, 1845.*

Signed **RICHARDS & CRONKHITE.**

**Certificate. Test No. 11.**

By the fire which occurred in this village, on the 27th July last, our Law Office, together with many other buildings was destroyed. We had in our office one of *Rich's Improved Patent Salamander Safes*, which, though heated red hot, preserved, without being the least damaged, many papers valuable to our clients—the envelopes of a few papers being slightly scorched. Some twenty-four hours after the fire, the Safe was removed, and so hot was it that several hours were required for it to cool off. Our office was in the 2nd story of a large brick building, all the wood used in construction of said house, being *Pitch Pine*; while the safe was red hot, one of the walls tumbled in, and so injured the lock that it was necessary to break the door open. From this test, we feel no hesitancy in recommending "*Rich's Patent Salamander Safe*," as *entirely Fire Proof*.

*Marion, Alabama, Sept 15th, 1845.*

**GORÉE & KING.**

Reference made to upwards of Thirteen hundred Merchants, Cashiers, Brokers, and officers of Courts and Counties, who have Rich's safe in use. The above Safes are finished in the neatest manner, and can be made to order at short notice, of any size and pattern, and fitted to contain Plate, Jewelry, etc. Prices from \$50 to \$500 each. **North American Hat Manufacturing Co.**  
**TICE, MANAGER,**  
**NO. 9, BOWERY, NEW-YORK.**

The public are respectfully notified that the above company has been formed with the express design of furnishing hats and caps at less prices than they have ever been offered in this or any other city, believing that it will be more profitable to retail hats at wholesale prices for cash, than to wholesale them on time. The above company pledge themselves if sustained by the public to furnish single hats and caps of every quality as cheap as they can be bought by the dozen. Their goods will be manufactured from the best materials and finished and trimmed in the most fashionable style. At this store, the man of small means, or the economical man, can find an elegant and durable hat for the low price of \$1,75, \$2, and \$2,25, whilst those who are willing to indulge in a superfine article can be accommodated on equally as advantageous terms. All goods will be sold at a small advance above the cost of manufacturing; therefore, if you would save a dollar in the purchase of a single hat, go to No. 9 Bowery.

**Brass Spring, Graduating Pressure**

## TRUSSES AND SUPPORTERS,

**13 Beekman-street, New-York.**

With these instruments the upward pressure can be varied at pleasure to any degree upon the part affected without the back pad, which is so injurious to the spine, while the springs, being made of brass, renders all danger of their breaking or rusting, entirely out of the question, so that, once right, always right. *Six days' trial given,* and if not perfectly satisfactory, money returned.

Persons sending their measure round the hips (and if for a truss, the side ruptured) will be furnished with an instrument they can fit to themselves.

# STRONG'S

## PATENT LAMPS.

At the Twentieth Annual Fair of the American Institute, just closed, the subscriber received the medal for the "*best design of Lamps*;" (Strong's Patent,) Messrs. Cox, Maiden Lane, and Stoutenburgh, Fulton street, dealers in Solar and other Lamps, being the judges. The Lamp has thus been publicly and severely tested, and its superiority proved and admitted. In addition to this public award, in behalf of Strong's PATENT LAMPS, by the American Institute, we are permitted to state, that the managers had one of the Lamps in constant use day and night during the fair, in their room, giving great comfort and satisfaction to all who were engaged in reading or writing by its shadowless and powerful light; and refer to the Hon. Mr. Tallmadge, President of the Institute, and Gen. Chandler and other managers, for the correctness of the above statements. The glass made use of in our lamps is from the Brooklyn Flint-Glass Company, so long and favorably known to the public.

Messrs. J. Mitchell and Co., the recipients of the medal for very superior silvered workmanship, at the late Fair, have contracted to furnish us with all our work of that description.

The advantages of Strong's Patent Lamps are:—

- 1st.—These Lamps cast no shade.
- 2d. Are free from smoke or smell.
- 3d. Will burn the cheapest oil, and give a greater light at less expense than any lamp now in use.
- 4th. Are more brilliant than camphene or spirit gas, without the same risks to life and property.
- 5th. Are not liable to get out of order, are easily cleaned, and warranted for one year.
- 6th. The hand-lamps will not spill oil with the most careless usage.

Manufactured solely by S. D. VANDERHEYDEN, 548 Pearl-st. New-York. Wareroom, 304 Broadway.

Chandeliers, bracket, hanging, parlor and mantel lamps in every variety.

Retail prices, from \$2,50 to \$20 per lamp. Solar and Astrals altered, from \$3 to \$5. By wholesale, from \$30 to \$200 per doz.

**TERMS:**—Under \$100, cash; over 30, 60, and 90 days, good paper.

No Agents appointed.

## DESCRIPTION OF THE CITY OF NEW-YORK.

### Location of the City, Population, &c.

NEW-YORK CITY, the principal city of the State of New-York; and in population, wealth and commerce, the largest city in the United States; deserves to be denominated the London of America. The City Hall is in  $40^{\circ} 42' 40''$  N. lat., and  $74^{\circ} 1' 8''$  W. long. from Greenwich, and  $3^{\circ} 0' 16''$  E. long. from Washington. It is 86 miles N. E. Philadelphia, 210 miles S. W. Boston, 225 miles N. E. Washington, 670 miles N. E. Charleston, 145 miles S. Albany, 372 miles S. Montreal, 1370 miles N. E. New-Orleans.

The compact part of the city is situated on the south end of New-York or Manhattan Island, at the confluence of Hudson or North river with the East river, which connects Long Island Sound with the harbor of New-York. The Island which contains about 14,000 acres of ground, extends from the Battery, on the south point of the island,  $13\frac{1}{2}$  miles to Kingsbridge, and has an average breadth of one mile and three-fifths. The greatest breadth, about  $2\frac{1}{4}$  miles is on the line of 88th street. It is connected with the main land on the north by three bridges: Harlem bridge, Macomb's bridge, and King's bridge.

*The Population* in 1790, was 33,131; in 1845, 366,785.

### The Harbor, Islands, Forts, &c.

The harbor of New-York is spacious and safe, the inner harbor extending 8 miles from the Narrows to the city, and several miles further up both the North and East rivers. Besides this, it has an outer harbor, extending from the Narrows to Sandy Hook consisting of Raritan Bay. Sandy Hook on which is a light-house, is 18 miles from the city; at this point there are 27 feet of water on the bar at high tide, and 21 feet at low tide. Within Sandy Hook there is a good anchorage. The harbor is entered not only from the ocean at Sandy Hook and through the Narrows, but also on the northeast from Long Island Sound, as well as on the southwest through the Kills and Staten Island Sound.

After passing the bar at Sandy Hook, the channel to the city has a depth of water of from 35 to 50 feet. The average tide at the wharves is from 6 to 7 feet. The safest and best portion of the harbor, and where the vessels chiefly lie, is along East River, which is rarely obstructed from ice, as the tide sweeps through it with a strong and rapid current.

*Islands and Forts.*—Several islands within the inner harbor are attached to the city, which are Governor's, Bedlow's, and Ellis's Islands, on all of which are strong fortifications; and Blackwell's, Great Barn, and Randall's Islands, in the East River. Governor's Island is 3260 feet from the city at the Battery, and includes 70 acres of ground. It contains Fort Columbus on the south of the island, and Castle William (on the northwest point,) which is a round tower, 600 feet in circumference and 60 feet high, with three tiers of guns. There is also a battery on the northwest side, commanding the entrance through the Buttermilk channel. At the Narrows, on the eastern shore of Long Island, are Fort Hamilton and Fort La Fayette, the latter of which (formerly called Fort Diamond) is built on a reef of rocks, 200 yards from the shore. On Staten Island, at the Narrows, are Fort Tompkins and Fort Richmond, both of which are strong fortifications. The entrance from the Sound on East River is defended by Fort Schuyler on Throg's Neck.

### The Battery.

The Battery at the Southern end of the city, is situated at the junction of Hudson and East Rivers. It is in the form of a crescent, containing about 11 acres of ground, laid out with grass plots and gravelled walks, shaded with trees. From this spot is a fine view of the bay, its islands, and the adjacent shores of New Jersey, and Long and Staten Islands. The scene is generally enlivened by shipping under sail.

### The Park.

The Park, called in early times the *Commons*, is a triangular area of about 10½ acres, lying between Broadway, Chatham and Chambers streets, is laid out with walks, and planted with trees, and surrounded by an iron fence, which cost over \$15,000. It contains the City Hall, the new City Hall or old Alms House, and the Rotunda, now occupied by the New-York Gallery of the Fine Arts. It has also, towards its southern part, a public fountain, within a basin, about 100 feet in diameter, which has a variety of jets, which are occasionally changed. When the water is thrown in a single stream, it ascends to the height of about 70 feet, presenting a majestic and interesting appearance. The fountain is designed to be made yet more ornamental.

### The Bowling Green.

The Bowling Green, at the southern termination of Broadway, is an elliptical area, 220 feet long and 140 feet broad, enclosed by an iron fence. It existed before the American Revolution, and formerly contained a leaden statue of George III., which was converted into bullets at that period. It contains a public fountain, which is supplied by the Croton water works. In the centre of a large basin is placed a rude pile of huge rocks in a somewhat circular form, about 15 feet in diameter, and as many feet high, and from the top issues a jet, with small jets around it, and presents, by the water pouring and tumbling down the sides of the rocks, a wild and picturesque appearance.

### Hudson Square, or St. John's Park.

Hudson Square, or St. John's Park, between Beach, Laight, Varick, and Hudson streets, is private property, belonging to Trinity Church, but has been reserved as a permanent private square. It is beautifully laid out with walks, shaded with trees, and surrounded by an iron fence, which cost \$26,000. It contains about four acres of ground, has a fountain, and is, perhaps, the most ornamental spot in the city.

### Washington Square.

Washington Square, a mile and a half north of the City Hall, between Wooster and M'Dougal streets, contains about 9¾ acres of ground. Two-thirds of the area was the Potter's Field until 1827, the remainder was purchased by the city for about \$78,000, and the whole is enclosed by a wooden fence, which cost nearly \$3,000. It is laid out in walks and planted with trees.

### Union Place.

Union Place, at the northern termination of Broadway, is in an elliptical form, enclosed with a fine iron fence, having a public fountain in the centre with ornamental jets, and is a delightful breathing-place to the inhabitants. Farther up the city are other public squares, as Madison square, Hamilton Square, and others, not yet

regulated. On the east are Tompkins Square and Bellevue, the latter the seat of the almshouse.

#### Croton Water Works.

A convenient mode of visiting the Distributing Reservoir in Fortieth street, or the Receiving Reservoir in Eighty sixth-street, is by the cars of the Harlem Rail Road, which leave the Depot, at the junction of Chatham and Centre streets, opposite the City Hall.

*Extent of the supply of water.*—The minimum flow of water in the river, where the dam is constructed, is considered to be twenty-seven millions of gallons for every twenty-four hours, which would be a sufficient supply for one million of inhabitants, three times the present population: and other streams can be turned into the Croton, if the time ever arrives when the population of the city will require an increased supply.

*Velocity of the water.*—The velocity of the water in the aqueduct has been ascertained to be about one mile and a half an hour where it is two feet deep.

*The Dam*—is 250 feet long, 70 feet wide at bottom, and 7 feet at top, and 40 feet high, built of stone and cement. It creates a pond five miles long, covering a surface of 400 acres, and contains 500,000,000 gallons of water.

*The Aqueduct*—proceeds from the dam, sometimes tunneling through solid rocks, crossing valleys by embankments, and brooks by culverts, until it reaches Harlem river, a distance of 33 miles. It is built of stone, brick, and cement, arched over and under six feet three inches wide at bottom, seven feet eight inches at the top of the side walls, and eight feet five inches high, has a descent of thirteen and a quarter inches per mile, and will discharge sixty millions of gallons in twenty-four hours.

*Aqueduct Bridge at Harlem River.*—The Aqueduct will cross Harlem river on a magnificent bridge of stone, 1,450 feet long, with 15 arches, 8 of them 80 feet span, and 7 of 50 feet span, 114 feet above tide water at the top, and will cost \$900,000. This bridge will probably be completed this fall.

*The Receiving Reservoir*—is at Eighty-sixth street, 38 miles from the Croton Dam, covers 35 acres, and contains 150 millions of gallons.

*The Distributing Reservoir*—at Fortieth-street, about three miles from the City Hall, constructed with stone and cement, covers four acres, and is 43 feet high above the street, is 36 feet deep when full of water, and holds 20 millions of gallons. Thence the water is distributed in the city in iron pipes, laid deep under ground, to be secure from frost. A section of the wall on one side of the Reservoir, including the embankment, is 17 feet wide at the top, 35 feet wide at the distance of 16 feet *below the top*, and 76 feet wide at the bottom. This Reservoir may be considered the termination of the Croton Aqueduct, and is distant from the Fountain Reservoir at the Croton, forty and a half miles.

*Cost of the Work—Extent of Pipe laid.*—The whole cost of the work will be about \$14,000,000. There are laid between the Distributing Reservoir in Fortieth street and the Battery, about 171 miles of pipe, from 6 to 36 inches in diameter, the majority of which is from 6 to 12 inches diameter.

*Introducing of the Water.*—The water was introduced into this Reservoir on the 4th July, 1842, and on the 14th of October following, the water was introduced into the city.

*Analysis of the Croton water.*—Croton water, taken from the Croton Dam, when perfectly clear, was found to contain 4.998, or about *five grains* of solid matter to the gallon. Schuylkill water, taken from the middle basin, on Fairmount, (Philadelphia,) contained 4.08 grains of solid matter to the gallon.

*Receipts and Expenditures for 1847.*—According to the annual Report of the Croton Aqueduct Board for 1847, the receipts for the year ending the 30th April, 1847, were \$194,551 34: exceeding the amount received in the corresponding period of time 1845-6, \$30,018 81; and the expenditure for the same period, \$54,403 04, which is a decrease from the year 1845-6 of \$4,030 63.

*Number of Permits issued.*—The whole number of Permits issued to the first day of May, 1847, was 14,961, which represent nearly 15,000 water takers.

#### Number of Arrivals in 1846.

The arrival of vessels from foreign ports in New York, in 1846, were 2289. Of these, 1620 were American vessels, 380 were British, 67 were Bremen. The remainder were from Sweden, France, and other countries. The arrivals *coastwise*, were 4663. Total arrivals, in 1846, 6952. Total arrivals in 1845, 7843.

#### PASSENGERS ARRIVED FROM FOREIGN COUNTRIES.

In 1843,	46,302.	In 1845,	82,960.
1844,	61,002.	1846,	115,230.

#### Deaths in 1845.

According to the Report of the City Inspector, the deaths in the city of New York, during the year 1846, were,—

Whites, males,	5,692—females	5,065	=	10,757
Colored, males,	272—females	298	=	570
<hr/>		<hr/>		<hr/>
5,964		5,363	Total,	11,327

Being an increase over the year 1845 of 344. Of these, 242 died in other places, and were brought to this city for interment; 997 were still-born and premature, and 192 were caused by casualties, drowning, &c., leaving the actual city mortality by disease, 9,886.

*The number of deaths in each month*, was as follows:—January, 847. February, 766. March, 876. April, 903. May, 752. June, 796. July, 1,336. August, 1,258. September, 1,046. October, 921, November, 834. December, 983.

#### The City Hall.

The City Hall, heretofore regarded the finest building in the City and one of the finest in the United States, has a commanding situation in the middle of the Park. It has more ornament than either the Exchange or the Custom House, but less simple grandeur; though with its furniture, it is perhaps, the most interesting building in the city. It is 216 feet long, and 105 wide; was commenced in 1803, and completed in 1812, and cost \$538,734. The front and ends are constructed of white marble, and the rear of brown freestone. It is two stories high above the basement, with a third or attic story in the centre building; and there rises from the centre a cupola, containing a clock of fine workmanship, and on the top, a colossal statue of Justice. In the upper part of this cupola is a room occupied by a watchman, whose business it is to give alarm in case of fire, as from this position he is able to overlook the whole city. Behind this,

another less elevated cupola, with eight Ionic columns, contains the City Hall bell, weighing 6,910 pounds, the different number of strokes of which indicate the district in which a fire occurs. The front of the City Hall is ornamented with columns and pilasters of the Ionic, Corinthian, and Composite orders, rising above each other in regular gradation. The building is entered in front by a flight of 12 marble steps. In the centre is a double staircase, ascended by marble steps, at the top of which is a circular gallery, floored with marble, from which ten marble columns of the Corinthian order ascend to the ceiling. In the building there are twenty-eight offices and other public rooms, the most conspicuous of which are the Governor's room and the chambers of the Common Council and Assistant Aldermen.

The *Governor's Room* is appropriated to the use of the Governor of the State when he visits the city, and has been used as a reception room for other distinguished men who have occasionally been here. It is 52 by 29 feet. The walls of the room are hung with a fine collection of portraits, including the Governors of the State, the Mayors of the city, since the revolution, some of the Dutch Governors, and the principal military and naval heroes of the late war.

The *Common Council Room* is 42 by 30 feet, and the president occupies the identical chair occupied by General Washington, when he presided over the first American Congress which assembled in New York. The room contains several fine full-length portraits, painted by Trumbull. The room of the Assistant Aldermen is handsomely fitted up.

### Hall of Records.

The *Hall of Records*, east of the City Hall, in the Park, is two stories high, with a lofty portico of four Ionic pillars on each front; and in the rear of it, is the *New City Hall*, formerly the old Alms House, which contains fifteen offices, besides the Marine Court Room, and the rooms of the American Institute.

### Post Office.

ROBERT H. MORRIS, POSTMASTER.

*Office Hours.* From 8 A. M. to 7 P. M.

*On Sunday.* From 9 to 10 A. M., and 12½ to 1½ P. M.

The Post Office, formerly the *Middle Dutch Church*, is located in Nassau street, between Cedar and Liberty streets, now rented to the General Government for 7 years, at the yearly rent of \$5,000. This venerable edifice has stood for 115 years. On Sabbath evening, 11th August, 1844, the closing exercises were held in the Church, in the view of resigning it for Post Office purposes. During the Revolutionary war, in 1776, when the British took possession of the city, several of the churches were occupied and greatly injured by the British soldiery; but the Middle Dutch Church suffered the most. It was at one time used by the British soldiery for their quarters, for a hospital, and then for a riding-school, in which British horsemanship was displayed. The whole of the interior was destroyed and rendered desolate. It was not till 1790 that the church was repaired, and again opened for divine worship.

*Branch Post Office*, corner of East Broadway and Chatham Square.—AARON SWARTZ, Postmaster.

*Office Hours.* From 6 A. M. to 10 P. M.

*On Sunday.*—From 8½ to 10½ A. M., from 12 to 1½, and from 7 to 10 P. M.

## Custom House.

HON. CORNELIUS W. LAWRENCE, *Collector.*

The Custom House, on the corner of Wall and Nassau streets, is a splendid building, constructed in the Doric order of Grecian architecture, of white marble, something after the model of the Parthenon at Athens. It occupies the site of the old Federal Hall, in the open gallery of which General Washington was inaugurated; and nearly over the front door is the place where he stood when the oath of office, as first President of the United States, was administered to him by Chancellor Livingston, April 30th, 1789. The building is 200 feet long, 90 feet wide, and 80 feet high. At the southern end, on Wall street, is a portico of eight purely Grecian Doric columns, 5 feet 8 inches in diameter, and 32 feet high; and on the northern end on Pine street is a corresponding portico of similar columns. The front portico is ascended by eighteen marble steps, and the rear portico on Pine street by only three or four marble steps. The great business hall is a splendid circular room, 60 feet in diameter, surmounted by a dome, supported by 16 beautiful Corinthian columns, 30 feet high, and at the top a skylight. On each side are 13 pilasters, in perfect keeping with the pillars on the two fronts.

*Cost of the Building.*—The cost of the building and its furniture was \$950,000; and including the ground, \$1,175,000.

The Custom House is open daily, Sundays excepted, from 10 A. M. to 3 P. M. Entries must be made before 2 P. M.

## The United States Revenue Boarding Office.

Situated at Pier No. 1, East River, a building recently erected by the United States Government, in very good taste, commands from the cupola (which contains a revolving light) an excellent view of the harbor and the adjacent islands.

### Merchants' Exchange.

The Merchants' Exchange is located between Wall, Exchange Place, William, and Hanover streets. It is built in the most substantial form, of blue Quincy granite, and is 200 feet long by 171 to 144 feet wide, 77 feet high to the top of the cornice and 124 to the top of the dome. The front on Wall street has a recessed portico of 18 massive Grecian Ionic columns, 38 feet high and 4 feet 4 inches in diameter, each formed from a solid block of stone, and weighing 43 tons. Besides numerous rooms for various purposes, the Rotunda in the centre is 80 feet in diameter, with four recesses, making the length and breadth each 100 feet, the whole 80 feet high, surmounted with a dome, resting in part on eight Corinthian columns of Italian marble, 41 feet high, and lighted by a skylight, 25 feet in diameter. On the south side of the roof is a telegraph, which communicates with another on Staten Island; and an hourly report is sent down from the telegraph to the news room in the Exchange, for public inspection. The cost of this building, including the ground, is estimated at \$1,800,000.

### Halls of Justice.

This building, which occupies the space between Centre, Elm, Leonard, and Franklin streets, is a unique and beautiful specimen of the Egyptian style of architecture. It is 253 feet long, and 200 feet wide. The front is entered by eight steps, leading to a portico of four massive Egyptian columns. The windows, which extend to the height of two stories, have massive frames, and cornices ornamented with the winged globe and serpents. The two fronts on Franklin and Leonard streets have each two entrances, with two massive columns each; and the back entrance forms a carriage way, for taking prisoners to and from the house of detention. This building, though handsome of its kind, has a heavy and gloomy aspect, which has acquired for it the name of the *Egyptian Tombs*. It is constructed of a light-colored granite, from Hallowell, Me.

*The Court of Sessions* occupies a part projecting back from the front building, the roof of which is supported by lofty Egyptian columns.

*House of Detention, or Prison.*—Within the enclosure of the Halls of Justice, and toward its back part, is the House of Detention, or Prison, 142 feet long and 45 feet wide, which is entirely separate from the outer wall and building, and consists of 148 cells, for different classes of prisoners.

## CELEBRATED ESTABLISHMENTS IN NEW YORK.

CANFIELD'S EXCELSIOR SHIRT MANUFACTORY, AND GENTLEMEN'S FURNISHING ESTABLISHMENT, No. 2½ Maiden Lane, near Broadway, opposite Howard Hotel, New-York.

Shirts made to measure, and warranted to fit.

The newest patterns and finest needlework characterize the establishment, and every article warranted. Constantly on hand, every variety of Linen, Cotton, and Fancy Shirts, ready made, of the best quality.

Also constantly on hand, a large assortment of Gentlemen's Furnishing articles, of the various qualities, consisting, in part, of Shakers' Knit Lamb's wool, Merino, Cotton, and Silk under-shirts and Drawers, Robes de Chambre, Hosiery, Scarfs, and Cravats, Opera Ties, Stocks, Suspenders, Gloves, Perfumery, &c.

D. W. CANFIELD.

DISBROW'S EQUESTRIAN ACADEMY.—“Time was” when horsemanship was considered an indispensable accomplishment for all who made any pretensions whatever to belong to the “upper ten thousand” of society. In the “brave old days of joust and tourney,” he who could manage his steed with most skill, ease and grace, was sure to wear the guerdon of his lady-love, and to win the admiration of the gentler sex. Nor was this art confined to knights and gentlemen alone, but the ladies fair were also more or less admired according to their proficiency in riding. The somewhat puritanic ages which succeeded the days of chivalry changed the tastes and amusements of society, and riding for amusement fell into disuse, or was confined to the soldiery and the “lower orders” of the community. Time has made a revolution, and we see in these days a reviving taste for this most graceful and healthy exercise; and we have reason to rejoice in this, for it is an earnest that our ladies are determined to pay a greater attention to their health than fashion has permitted them to do heretofore. To manage well the noble horse, to understand his disposition, to know how to control his pace, is an art which can only be acquired from a competent teacher; and such a one can be found in the person of Mr. Wm. H. Disbrow, whose skill and knowledge of his profession is unsurpassed, in this city at least.

His school is located in the Bowery, above Vauxhall Garden, and is most admirably adapted for the purposes for which it is intended. The comforts of the *menage*—the politeness and attention of the instructor, must commend the establishment to all who may be disposed to visit it. The charges are extremely moderate.

LEGHORN HAT MANUFACTURING AND BLEACHING ESTABLISHMENT, No. 52 Howard-street, west side of Broadway, CARINGTON WILSON, Bleacher. Spring Fashion for 1848.

Ladies possessing Leghorn Hats that have been laid by, because the shape is not fashionable, can have them altered into fashionable shape at this establishment without any appearance of piecing, and bleached, so as entirely to restore the color, and make it as durable as when new.

Leghorn Hats to be prepared for early spring Hats, should be sent on or before the 1st of February.

### COLLECTION OF TAXES.

The State and County Taxes are collected by the Receiver of Taxes, at his office in the basement of the *New City Hall*, in the Park, in the rear of *the City Hall*. Smith Dunning, Receiver.

The Taxes are payable on the 14th day of February.

Any person may pay his taxes prior to the 1st day of January, and in so doing is entitled to a discount therefrom, at the rate of 7 per cent. per annum, to be reckoned from the day of payment to the first day of February. All taxes remaining unpaid on the 15th day of February, are chargeable with a penalty of one per cent. on the amount of the tax: if remaining unpaid on the 15th of March, an additional one per cent., making two per cent.: and if not paid before the first day of April, will be chargeable with a penalty of one

per cent. *per month*, to date back to October, 1847. For all taxes remaining unpaid on the 15th of April, the receiver is authorized to issue his warrant to the Sheriff or Constable, to collect by distress and sale.

### ERRONEOUS TAXES.

An act was passed by the State Legislature, in May, 1844, authorizing the Board of Supervisors of the city and county of New York, to correct taxes erroneously assessed, *provided* the same did not result from the neglect of the person assessed, and provided, also, that application shall be made within six months of the date of the return of the Assessment Rolls to the Receiver. The Rolls will be returned early in October, and the time for correcting erroneous taxes therefore expires early in April.

The Board of Supervisors is composed of the following officers; viz:—

The Mayor, Recorder, and Aldermen. David T. Valentine, No. 8 City Hall, is clerk of the Board of Supervisors.

### ANTI-ASSESSMENT COMMITTEE.

### **Rules Observed at the Banks in this City.**

The Banks are open every day in the Year, from 10 A. M. to 3 in the afternoon, except Sundays, Christmas Day, New Year's Day, the 4th of July, and general Holidays, appointed by legal authority, and the Bank of New-York on Good Fridays.

The interest for discount in the banks in this city is fixed at Six per Centum per Annum, upon notes or bills not having 60 days to run. Three days of grace are allowed, and the discount taken for the same.

Every Bill or Note offered for discount, must be delivered into the office on the day preceding the day of discount, inclosed in a sealed cover, directed to the Cashier, advising the name of the person upon whose account it is offered, &c.

Bills or notes lodged at the Banks for collection, are collected free of expense, except when protested for non-payment—the person lodging the same pays the charge of protest.

Deposits of money, or notes for collection, must be entered in the dealer's book at the time such deposit is made.

# GREENWOOD CEMETERY.

OFFICE,

NO. 39, WALL-STREET.

This is the largest Cemetery of the kind in the world, containing 242 acres of land, which are entirely free from incumbrance. It is situated in Brooklyn,  $2\frac{1}{2}$  miles from the South Ferry, on the hills of Gowanus, from which are presented beautiful views of the Bay and Harbor of New-York, with its islands and forts, the cities of New-York and Brooklyn, the shores of the North and East Rivers, New Jersey, Staten Island, the Quarantine, numerous towns and villages in every direction, together with that part of the Atlantic Ocean extending from Sandy Hook to the Rockaway Pavilion.

The Charter of this Institution was obtained in 1838, but the grounds were not publicly opened for interments until four years later. Since then the improvements made have been numerous and striking. The natural undulations of the surface have been greatly beautified by gently-curving Avenues (which now extend about 15 miles) and almost at every step monuments and tombs arrest the attention of the visitor. About 2,100 lots have been sold, of which 870 have been enclosed by iron railings, and 86 by stone posts and chains. 46 Tombs have been erected in side hills and above ground, and 76 Vaults have been built underground. 137 Monuments have been erected. The number of interments now exceed 3,100, and are greatly on the increase.

The *Charter* embraces every desirable provision for the security, permanence and proper government of the institution. It exempts the grounds for ever from assessment and public taxes, and also from all liability to be sold on execution, or for the payment of debts by assignment under any insolvent law. It requires that all the proceeds of sales of lots shall be applied to the payment of the ground purchased, and to the preservation, improvement and embellishment of the Cemetery, and to the incidental expenses thereof, and to *no other purpose whatever*. This provision effectually excludes all speculative gain and prevents any other interest conflicting with that

of lot owners. Lot owners are *sole* proprietors of the Cemetery, and through the medium of Trustees whom they choose, they control entirely the Institution. These features so essential to the proper regulation and improvement of a place of burial, are possessed by no other Cemetery in this vicinity.

The price of Lots is \$80 each where four or more are taken together, and \$100 for a single lot. The size, including the margin allowed for purposes of enclosure, is 14 by 27 feet, or 378 superficial feet. The price is less, for the quantity of ground given than that of any other Cemetery in the immediate vicinity of the city. Deeds in *fee simple* are given for all lots sold, and when graded they are taken care of free of expense.

Receiving Tombs are provided in various parts of the city, and at the Cemetery, in which interments may be made until lots can be selected and improved.

Single Graves may be procured in lots set apart for the purpose.

Tickets of Admission for vehicles may be procured at the office of the Cemetery; after the first day of January, 1848, tickets will be required for *all* visitors whether in vehicles or on foot.

## THE ROCKLAND CEMETERY.

OFFICE,

No. 33, JOHN-STREET, NEW-YORK.

This Corporation was formed under the act of the Legislature of this state, passed April 27, 1847, entitled "an act to provide for the Incorporation of Rural Cemetery Associations." The grounds selected consist of about *two hundred acres*, situated on the summit and western slope of the Kilausland Hills, in Piermont, about half a mile north of the Erie Railroad, and about the same distance from the Hudson River. The lands are beautifully adapted to the purposes for which they have been selected, and will afford every variety of location for burials, being diversified with hills and dales, and commanding extensive views of the Hudson River, as well as a wide and splendid landscape from the west and south.

The grounds are, to a considerable extent, already planted with cedars, pines, and other evergreens, and with elms, maples, and other forest trees; and with a comparatively small expense, the site may be made one of the most picturesque and imposing Rural Cemeteries in this or any other country. It is easy of access from the landing at Piermont, and interments from this city can be made at less expense than is usually required in burials in the vicinity of New York.

A steamboat leaves the foot of Duane-street, N. Y., at 7 a.m. and 4 p.m. for Piermont, arriving there in about an hour and a half.

The Corporation intend to make such arrangements with the Railroad Company as to afford every facility to all those who desire to make interments in this Cemetery; and when the small price charged for a lot, and the superior advantages connected with the purchase are considered, it will be found that a private burial ground is within the reach of almost every family.

This has been the object of the Corporation, to afford to the great mass of the community the opportunity of securing for themselves and their children a burial place, secure from all danger of interruption from any cause whatever.

The rules and regulations, with further information, will be published as soon as the board can complete their arrangements; but they will in general be similar to those of Greenwood, Mount Auburn, Laurel Hill, and other Cemeteries.

The lots are 16 by 25, containing 400 superficial feet, a space sufficient for the graves of about fifteen adults and ten children.

The price of a plat will be fifteen dollars, until one thousand are sold, when there necessarily will be an advance.

Sites for Tombs, containing about 150 superficial feet, including the stone from the grounds for erecting the same, at each twenty-five dollars. The stone is of an excellent quality, and the facility with which it can be obtained is another great inducement to select a site in this Cemetery.

The Association is founded on mutual benefit. Every person purchasing a plat becomes a member, and is entitled to all its privileges.

Plats will descend to the heirs at law for ever, and by the law are exempt from execution and taxes, securing to all, at a low price, a permanent resting place for beloved relatives and friends.

Societies or individuals wishing to procure lots in the Cemetery, are requested to call at the office of the Agent of the Association, No. 33, John-street.

Officers.—JACOB AIMS, President; WILLARD PARKER, M.D., Vice-President; JAMES VAN NORDEN, Treasurer; HORATIO P. ALLEN, Secretary.

Trustees.—JACOB AIMS, HORATIO P. ALLEN, JAMES VAN NORDEN, EDMUND DRIGGS, WILLARD PARKER, M.D.

Keeper of the Grounds.—JACOB J. BLAUVELT.

Agent for the Sale of Lots.—ROBERT G. NELLIS, Office, 33, John street.

**N. B.—PUNCTUAL ATTENDANCE AT ALL HOURS.**

☛ Hearses, Carriages, Coffins, Scarfs, Gloves, and every thing in the line furnished at the shortest notice. Interments in any part of Greenwood Cemetery promptly attended to.

The attention of the public of New-York is respectfully invited to the newly invented apparatus, called the CORPSE PRESERVER. The object for which it is intended, is perfectly to preserve Corpses from decay for any length of time, without being anywise offensive to delicacy, or unseemly in appearance. The value of such a machine cannot be estimated but by those tender feelings which long for the preservation of a departed friend, and among those who have been compelled to use it, on account of the fast decaying of their friends, a general and pleasing satisfaction has been given, for none can speak too highly of such an important and useful invention. Benevolent Institutions, and all others who desire to delay Funerals until the arrival of distant relatives, or to make suitable preparations for interment, can, by the use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze on them.

Mr. Baisley has secured the patent for Brooklyn and Long Island of this valuable and much needed apparatus; it can be used in the best room in the house without the least inconvenience, and if it does not give satisfaction there will be no charges made.

# TRINITY CHURCH CEMETERY.

---

THIS Cemetery is situated on the high grounds near Manhattanville, on the island of New-York, extending from 153d-st. to 155th-st., and from the Tenth Avenue to Hudson River. The grounds are high, giving a commanding view of the Hudson River, Highlands and Jersey shore, the village of Harlem, the Sound and Long Island shore. The grounds are beautifully laid out in avenues and walks, and well covered with a great variety of wood, ornamental trees, evergreens and shrubbery. The soil is of the most suitable kind for burial purposes.

This Cemetery is fenced in the most secure and permanent manner. A keeper's lodge is on the grounds, and a keeper in constant attendance to show the grounds and to give such information as may be required in relation to the Cemetery.

The whole of the Burial and Vault Plots are fronted on avenues; the price of the regular sized lots, 15 feet square, is \$60 in the easterly division, and \$65 in the westerly division: smaller and larger sized lots can be had at a proportionate price—a portion of the grounds have been laid out for single interments. The price for an interment is as follows: for persons 14 years of age and upwards, in graves, \$5, in church vaults, \$7; for persons under 14 and over 5 years of age, in graves, \$3, in vaults, \$4; for those under 5 years, in graves, \$2, in vaults, \$2 50; the keeper's charge for opening graves for persons of 14 years and upwards, is \$2; under 14 and over 5, \$1 50; under 5 years, \$1; the price for opening and closing vaults, in all cases, is \$1.

When interments are to be made in this Cemetery, the use of the chapel at the Clarkson-street burial-ground to perform the service in will be granted, if desired, and the use of the receiving tomb, at that place or at the Cemetery, will also be granted without charge, excepting one dollar to the Sexton for opening.

The avenues and roads leading to the Cemetery are good at all seasons of the year. A steamboat runs throughout the year to convey funerals, at one shilling each passenger, also the

Manhattanville line of stages leave the Hall of Records every forty minutes for the Cemetery, passage eighteen pence, the Harlem cars also convey passengers to the Cemetery. Further information may be had at the vestry office, corner of Fulton and Church streets, where the printed rules and regulations, together with a map or plan of the Cemetery can be had gratis.

For interments, apply at the above office, from 9 o'clock A.M. to 3 P.M., or to David Lyon, Sexton of Trinity Church, 44 Greenwich-street, James S. Martin, Sexton of St. Paul's Chapel, 35 Murray-st., or to J. Morrison, Sexton of St. John's Chapel, 17 Clarkson-st.

Persons can employ sextons of other churches, or such undertakers as they may wish.

Persons wishing to purchase burial plots, can apply for that purpose either at the Vestry-office or to Henry Youngs, No. 261 Broadway, to Henry Cotheal, No. 393 Fourth-st., or to Alexander L. McDonald, No. 52 John-st., where a map of the Cemetery grounds and the regulations of the Cemetery grounds may be seen.

N.B. No tax or charge whatever is made to the owners of private burial plots or vaults, for keeping the grounds in order or ornamenting the same.

**SAILORS' SNUG HARBOR.**—This Institution, located on the *north side* of Staten Island, was established by a fund left by Capt Robert B. Randall, of New York, who died in 1801, and bequeathed a large amount of real estate in this city, now of great value, for the support of aged and infirm seamen. The principal edifice with the wings, is about 225 feet in length, surrounded by a farm of 160 acres of land, the property of the Institution. There are usually about 100 sailors supported at this establishment.

*Mode of visiting it*, by the Port Richmond Ferry, at the foot of Battery Place, North River, the boats of which depart several times during the day, and land passengers as above. Thos. H. Merry, Agent, 93 Wall.

**SEAMEN'S FUND AND RETREAT.**—Located on Staten Island, near the Quarantine. The Seamen's Retreat was organized for the purpose of supporting sick and disabled *seamen* in a separate establishment from the sick *passengers* arriving at this port. It was incorporated in 1831, and is sustained by a fund raised by a tax on masters of vessels and seamen arriving at New York, which amounts to about \$27,000 annually. A loan of \$45,000 was granted some years ago, from the funds of the Marine Hospital, arising from alien passengers. The office in *New York*, is at 8 Old Slip. T. W. Tucker, Pres.

**UNION THEO. SEM.**—This Institution, founded in 1836, is located at University Place, between Sixth and Eighth streets, near Washington Square. The principal edifice contains four large and com-

modious lecture rooms, a chapel, library and study rooms, besides four large furnished rooms for the accommodation of the students. It has six professors, and generally about 100 students. The library contains over 16,000 volumes. R. T. Haines, Pres.; Charles Butler, V. Pres.; Rev. J. W. McLane, Recorder; A. P. Halsey, Treasurer. *Faculty*: Rev. H. White, Professor of Systematic Theology; Rev. Edward Robinson, Professor of Bible Lit.; Rev. S. H. Cox, Professor of Bible and Ecc. History; W. Turner, instructor in the elements of Hebrew; Rev. L. B. Lockwood, Financial Agent; Edward Howe, jr., instructor in Sacred Music.

**UNITED IRISH REPEAL ASS.**—John Egan, Treas.; Chas. E. Shea, Sec.

**UNIVERSITY OF THE CITY OF NEW YORK**—This fine edifice, of white marble, in the Gothic style of English collegiate architecture, stands on Washington Square, between Washington Place and Waverly Place, and is 180 feet long and 100 wide. The chapel, a highly finished room, receives its light from a window of stained glass in the west front, 24 feet wide and 50 feet high. This institution was founded in 1831, has a President and 11 professors, a valuable library and philosophical apparatus. Connected with it is an extensive grammar school, and a flourishing medical department.

The University buildings are valued at \$260,000, philosophical apparatus \$10,000, Library \$7,000. *Commencement*, third Wednesday in July. To indigent students from the country, the price of board need not exceed \$1.75 per week, and this they can easily earn by the employment of their time out of study hours.

*Medical Department of the University.*—The faculty purchased the granite building, No. 659 Broadway, formerly known as the Stuyvesant Institute; the expense of which was about \$60,000. The museum and apparatus (valued at \$30,000) belong chiefly to the professors.

The session begins on the last Monday in October, and ends on the last day in February.

**WASHINGTON MONUMENT ASSOCIATION.**—Office, No. 86 Merchants' Exchange. Henry Storms, President; Elias G. Drake, Vice President; Shepherd Knapp, Treasurer; Robert D. Hart, Sec.

This Association has already accomplished much towards effecting the object of its incorporation. A beautiful location has been obtained for the Monument, in the centre of Hamilton Square, and a design has been adopted. The work of erection is expected to commence early in the Spring—it being necessary to secure a capital of \$50,000, paid before commencing. A large portion of that amount is already subscribed.

**WELSH BEN. SOC. OF THE CITY OF N. Y.**—Evan Griffith, Pres.; Enoch Morgan, Treas.; G. W. Griffith, Cor. Sec. The objects of this Society are the advising and protecting Welsh emigrants. Apply to the British Protective Emigrant Society, 42 Cortland-street, for information.

## PLACES OF AMUSEMENT IN NEW-YORK

(The Arrangement is Alphabetical.)

### AMERICAN MUSEUM.

The American Museum is situated at the corner of Broadway and Ann street. No establishment of its kind in America, has probably been conducted more efficiently and successfully than this. Its present proprietor, Mr. P. T. BARNUM, came into possession of it about the commencement of the year 1842, when it had been completely run down, and its business entirely prostrated.

No sooner, however, did Mr. Barnum take the helm of its affairs than new life seemed to be infused into it. By means, which many considered hazardous, he was successful in awaking public attention and in attracting both strangers and residents to view his immense collection of Natural and Artificial Curiosities, and to witness a choice variety of chaste and interesting amusements.

For the convenience of Ladies and Children, he gives performances every *afternoon*, as well as evening, and uses every means to preserve the strictest order and decorum at all times.

### AMERICAN ART UNION.

American Art Union, 497 Broadway. The amount received from those who contribute \$5 per annum, is appropriated to the purchase of paintings by American Artists, which are disposed of annually by lot, among the subscribers.

Officers.—Prosper M. Wetmore, *Pres.*; R. F. Fraser, *Cor. Sec.*; N. Jarvis, jr. *Rec. Sec.*; G. W. Austin, *Treas.*

### BOWERY THEATRE.

The Bowery Theatre is situated in the Bowery near Bayard street. This Theatre was first opened, under the management of Charles Giltfert, in 1827, and burnt to the ground in 1829; it was then rebuilt by the late Henry Astor, and again burnt in 1836, while under the charge of Hamblin; it was then rebuilt by Dinneford, and burnt again, for the third time, in 1838; again, Phenix like, a new building sprang from the ashes of the old one, under Hamblin's direction, to share the fate of its predecessors in the month of April, 1845; in the month of May, less than thirty days after the conflagration, the present proprietor, A. W. Jackson took a lease of the ground and commenced the rebuilding of the present elegant edifice, which was completed and opened under his management August 4th, 1845, less than ninety days from its commencement, since which time its present proprietor has enjoyed a patronage fully equal, if not superior, to that bestowed on any of its predecessors.

### BROADWAY THEATRE,

Broadway between Anthony and Pearl streets, opened on the 27th September, 1847; is splendidly embellished outside and inside; the first tier of boxes and parquette (both on one floor) are fitted up with sofas; connected with which is a magnificent furnished parlor for ladies, and another for gentlemen. The house will comfortably seat 4000 persons. Every attention has been paid to the comfort of visitors while the prices of admission are lower than those charged in establishments of the same class abroad.

## CASTLE GARDEN

Is built on a mole, and connected with the Battery by a bridge. It was originally erected as a fortification, and having become unnecessary for this purpose, was ceded by the United States to the corporation of the city in 1823. Within its walls 10,000 people can be accommodated, in a great amphitheatre; it is used for exhibitions and sometimes for public meetings.

## CIRCUS.

Tryon's, Bowery nearly opposite the Bowery Theatre, is a well-managed and agreeable place of resort.

## CHATHAM THEATRE.

The Chatham Theatre is situated on Chatham street, near the corner of Roosevelt, and almost opposite Orange street. J. Fletcher, manager.

## GREENWICH THEATRE

Is located at the corner of Varick and Charlton streets. This building was formerly the residence of Aaron Burr. Closed at present.

## MITCHELL'S OLYMPIC THEATRE.

This building, No. 444 Broadway, was converted into a Theatre in 1837, by Messrs. Willard and Blake, but was only under their management a few months, the enterprise meeting with very indifferent success. The establishment then for a period of nearly two years was under the control of a number of individuals, but with as little success as attended the effort of the original proprietors. In the month of December, 1839, it came under the control of the present lessee, Mr. Mitchell.

## NATIONAL ACADEMY OF DESIGN.

The Academy of Design, located at 348 Broadway, exhibits annually a large collection of paintings by living artists. The life and antique schools of this institution are opened annually at the close of the vacation in October. No charge is made to students. The requisite for admission is an original drawing from the round, for the antique, and a full length figure, for the life school, to be approved by the council. The schools in the city of New York, both private and public, are invited at the close of every exhibition to attend, free of charge. The number of schools which attended the last exhibition was 83, and the number of scholars, as near as could be ascertained, 5,310. *Council*.—A. B. Durand, *Pres.*; C. C. Ingham, *V. Pres.*; J. G. Chapman, *Cor. Sec.*; F. W. Edmonds, *Rec. Sec.*; T. S. Cummings, *Treas.*; Charles L. Elliott and Daniel Huntington. *Hanging Com.*—William Page, V. G. Audubon, G. A. Baker, and Christian Mayr.

## NEW YORK GALLERY OF THE FINE ARTS,

Is located in the Rotunda Building, in the Park, corner of Centre-st. The payment of one dollar entitles the person, *during life*, to free admission to the Gallery. Single admission, 25 cents. Open daily.

*Officers*.:—Jonathan Sturges, *Pres.*; F. W. Edmonds, *V. Pres.*; Thos. H. Faile, *Treas.*; Wm. H. Johnson, *Sec.*

**NEW OPERA HOUSE**

In Astor Place, now erecting, will exceed in decorations and interior arrangements any place of amusement of the kind in the United States; it will be completed about the 1st of December.

**NIBLO'S SALOON,**

557 Broadway, kept by John Niblo, (formerly of Niblo's Garden, which was destroyed by fire, on the 19th of September, 1846.) is one of the most chaste and elegant places of resort of its kind in the city. The saloon is a large amphitheatre lighted from a dome. It is decorated with a splendid fountain adorned with a statue, with magnificent jets d'eau imparting in the summer a delightful coolness to the room; in the basin of the fountain may be seen innumerable gold fish disporting in the pellucid water of "the Croton." The other decorations are in the first style of art, saying nothing of the beauty and fashion of New York who find this the most agreeable lounge in the city. In the winter the saloon is comfortably heated, and is occasionally, both in the summer and winter, used as a concert hall. The refreshments are unrivalled in their quality. In short, the well known proprietor has spared no pains or expense and well merits the encouragement of the citizens of and visitors at "The Great Metropolis."

**PALMO'S OPERA HOUSE.**

No. 41 Chambers street. Closed at present.

**PARK THEATRE.**

Situated in Park Row, opposite the Park, was built in 1796, altered and improved in 1806, burnt in 1820, and rebuilt in 1821. It is the property of John Jacob Astor and the heirs of John K. Beekman. The present lessee is Edmund Simpson, who became joint proprietor with the late Stephen Price, in 1816.

**VAUXHALL GARDEN**

Is situated in the Bowery, between Great Jones and Eighth streets. It is conducted by Bradford Jones, and devoted to theatrical entertainments, concerts, exhibitions of fireworks, &c.

§ 2. In all cases where the distance exceeds half a mile, and does not exceed two miles, the cartman shall be entitled to receive one-third more for every load of the same article, for every additional half mile he shall cart or transport them.

§ 3. If any cartman shall ask, demand, receive, take, exact, or extort any greater rate or rates, price or prices, or compensation, for carting or transporting any goods, wares, merchandize, firewood, or other things, than is mentioned, expressed, and limited in the provisions of this title, he shall forfeit and pay the sum of five dollars for every such offence.

§ 4. If any cartman shall ask or demand any greater rate or price than is above provided and allowed, for the transportation of any goods, wares, or merchandize, he shall not be entitled to receive any compensation for any such services.

§ 5. No cartman shall neglect or refuse to cart, or employ his horse and cart, or sled, in the transportation of any articles whatever, when required, unless he be then actually otherwise employed, or unless the distance he shall be required to go shall be more than four miles from the City Hall, under a penalty of five dollars for every such offence.

## Public Porters and Handcartmen.

### The Law applicable to Public Porters and Handcartmen.

§ 1. The prices or rates to be taken by, or paid to, the said public porters or handcartmen, shall be as follows, to wit:

#### *For carrying a load upon a Wheelbarrow.*

1. For any distance not exceeding half a mile, twelve and a half cents.

2. For any distance over half a mile, and not exceeding a mile, twenty-five cents; and in proportion for any greater distance.

#### *For carrying a load upon a Handbarrow.*

1. For any distance not exceeding half a mile, twenty-five cents.

2. For any distance over half a mile, and not exceeding a mile, forty-four cents; and in that proportion for any greater distance.

#### *For carting a load in a Handcart.*

1. For any distance not exceeding half a mile, eighteen cents.

2. For any distance over half a mile, and not exceeding a mile, thirty-one cents; and in that proportion for any greater distance.

§ 2. No public porter or handcartman shall ask, demand, or receive any greater rate or price for transporting any article or articles, than is herein allowed, under the penalty of five dollars for each offence.

§ 3. No public porter or handcartman shall be entitled to receive or recover any pay or fare from any person from whom he shall have asked or demanded any greater price or rates than he may be authorized to receive by this title.

§ 4. No public porter or handcartman shall be entitled to recover or receive any pay or fare from any person for the transportation of any article or articles, unless his name and number of his license, and the rates, shall be fixed, and the badge worn, agreeably to section fifth and sixth of the first title of the chapter.

§ 5. Upon the trial of any cause commenced for the recovery of any of the aforesaid prices or rates, it shall be incumbent on the plaintiff in such action, to prove that the badge was worn, and the prices fixed, agreeably to the sections mentioned in the last preceding section, at the time the services were rendered for which the suit was brought.

# STREET AND AVENUE DIRECTORY

## OF THE

### CITY OF NEW YORK.

(Corrected October 25th, 1847.)

Entered according to Act of Congress, in the year 1847, by H. Wilson, in the Clerk's office of the District Court of the United States for the Southern District of New-York.

#### Explanation.

If you wish to find the location of any dwelling house or store,—for instance, No. 80 Allen-street, on consulting the Street Directory, you will observe that 68 Allen is on the right-hand of that street and on the corner of Grand, and 88 Allen is on the right-hand corner of Broome: hence the desired number 80 Allen, will be on the right-hand side of Allen-street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street so as to call at 128 Bowery: on examination (see Bowery) of the corner numbers in the Bowery, you will observe that 127 Bowery is on the corner of the Bowery and Grand;—hence, by passing from Broadway through *Grand-street* to the Bowery, you are opposite to the desired number, 128.

NOTE.—The streets above Twelfth-street are divided by Avenue 5th, into East and West—as East Thirteenth, West Thirteenth—and the streets located as above described will be found, therefore, in this work under East and West.

**HULL'S TRUSS OFFICE,**

**NO. 4 VESEY STREET, (ASTOR HOUSE,) NEW-YORK.**

Established for the sale and application of Dr. Amos G. Hull's Invented Instruments, for the relief and cure of Rupture, burst or breach of the groin, and also for the sale and application of Dr. Hull's Utero Abdominal Supporter. An instrument invented to relieve the aching, dragging, and bearing down pains incident to Prolapsus Uteri, (falling womb) also to overcome Consumption, Indigestion, Irregularity, and all the evils resulting from a weakened state of the abdominal muscles. Ruptured persons may rely upon obtaining at this office the best instrumental aid the world affords; while those laboring under Prolapsus will, through the aid of the supporter, be placed in a condition to obtain speedy relief at the hands of their medical advisers. The offices, No. 4 Vesey street, are attended by competent persons, who attend personally to the application of the instruments. The Ladies department especially is a retired, distinct parlor and sitting room, under the exclusive care of a qualified female.

**BROOKS'****PATENT ELASTIC METALLIC SHANK  
BOOTS AND SHOES.****CONGRESS GAITERS,  
FOR LADIES AND GENTLEMEN.**

These articles are superior to anything ever before manufactured in this, or any other country, for durability, beauty, and utility.

**No. 138 Fulton-street, New-York.**

This unique and useful invention was awarded a Silver Medal, (the highest premium) at the last annual Fair of the American Institute, for its superiority over all others offered for competition.

It has met the approbation of the officers of the Army and Navy, as well as every gentleman of taste, who has fairly tested its value, and is rapidly coming into general use among all persons who regard ease, grace, comfort and durability, as desirable requisites in their **BOOTS and SHOES**. It makes the Boot or Shoe more elastic, preserves its original style and shape, and gives the hollow part a beautiful and elevated arch, thereby allowing the heel to be worn very high with perfect ease, or quite low, without exposing the pantaloon-strap to injury. It also keeps the foot from pressing forward and retains it in a natural and easy position. Myself and John Dick are the only persons who make and sell boots and shoes with this invention in the cities of New York, Brooklyn, and Jersey City.

**CONGRESS GAITERS.**

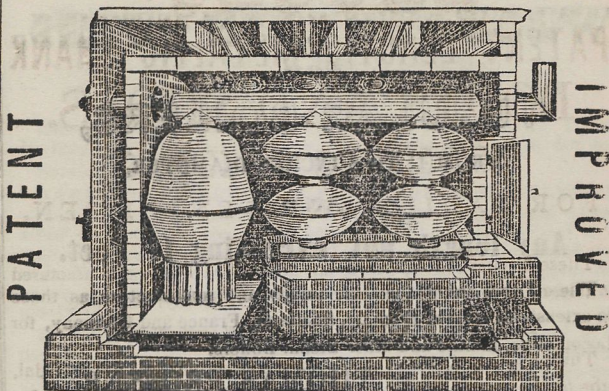

The undersigned, the first in the city of New-York to manufacture this justly celebrated and elegant article, continues to make them up in an endless variety of styles, in workmanship unequalled, and at prices defying competition. All other kinds of Boots, Shoes, Gaiters, Pumps and Slippers for Ladies, Gentlemen, Youths, Misses and Children.

**LORIN BROOKS.**

## WALKER'S

## HOT AIR FURNACE.

In no department of domestic economy and comfort have greater improvements been made than in the method of heating dwellings. The old-fashioned chimney with its ample fire of birch or hickory has long since given place to the snug and glowing grate, or the more economical and manageable stove. But both these are destined to be superseded by the more modern Hot Air Furnace. A good Furnace possesses several decided advantages over a grate or stove.

1st.—It warms several apartments from the same fire without the annoyance of *dust* or *gas*.

2nd.—Its heat can be graduated with the utmost nicety by means of the Register in the apartments warmed.

3d.—It *ventilates* the house by causing a constant supply of pure warm air to enter the apartments, from the Furnace Chamber which is supplied with fresh air from without.

The above named Furnace is acknowledged, by all who have examined it, to possess these qualities in greater perfection than any other in market. It has moreover a decided superiority to others, in respect to economy of fuel, and durability—but one of its chief advantages consists in having an evaporating pan, which is so ample, and so well arranged, that the vapor arising from it becomes thoroughly combined with the air before it passes from the Air Chamber, and thus secures an atmosphere pure, healthy and agreeable, which may be kept at the requisite temperature, without injury to the furniture or to the lungs. This Furnace is put up under the personal supervision of the Patentee, who will be happy to give any additional information to those who may favor him with a call.

**AN EXTRAORDINARY WORK,**

AND ONE WHICH SHOULD BE

**IN THE HANDS OF EVERY MARRIED PERSON.**

**MORAL PHYSIOLOGY**,—or a plainly written Treatise on the **POPULATION QUESTION**, by the Hon. R. D. Owen, with additions and alterations, by R. Glover, M. D.

Were this book carefully read by every married person, and its advice strictly followed, we are persuaded that a different state of society from the present would exist.

The terrors of poverty, and the prospect of a family of children which could be but poorly reared, prevent many prudent people from entering the matrimonia' state; but here is a work which will tell you important secrets, which may obviate all such objections to a happy connubial relation, and which thousands of married people would give all they possess to understand fully.

The editor is not allowed to state in public, the character of this work more in detail; but he knows that it is one which will meet with universal approbation, the moment it becomes known among married people.

Persons wanting copies of this important Physiological Werk, by enclosing one dollar to Dr. R. Glover, No. 2 Ann street, or to box 1802, New-York Post-Office, will receive one or two copies of the work in question. Postage on the book is five cents.

### SELPHO'S FIRST PREMIUM ANGLE- SEY LEG—For which the

first premium of a silver Medal, awarded at the late Fair of the American Institute; introduced into the country

and made solely by WM. SELPHO, 20 Spring street, New York. This description of Artificial Leg derives its name from the celebrated Marquis of Anglesey, who lost his leg in the battle of Waterloo, by whom it has been adopted and worn ever since its first invention by the late ingenious Mr. Potts, of London, to whom the present artist was for eleven years a pupil and assistant.

"I have seen the artificial leg of Mr. Selpho; its construction appears excellent and well calculated to answer all the objects desired. But the best of all is the proof of those who wear them; this is positive and undeniable. Some of my friends whom I have mutilated, inform me that they are superior to all others.

VALENTINE MOTT,  
*Professor of Surgery, University of New York.*

### Also SELPHO'S ARTIFICIAL HAND.

An entirely new and useful substitute for a lost hand, so arranged that the wearer can open and shut the hand by means of the remaining stump. W. S. will give further information by application or by letter, post paid.
